

Manufacturer's Certification Statement

The IRA 2022* has increased and extended the credits on residential insulation through 12-31-25, the date by which purchases of certain non-business energy efficiency upgrade materials (also known as "Eligible Building Envelope Components") can qualify for the Energy Efficiency Home Improvement Tax Credit (26 USC 25C) as described below:

Tax Credit: 30% of the annual cost up to \$1200.

For: Qualifying products installed January 1st, 2025 to December 31st, 2025.

Applies to new construction and existing primary residence & second homes only. Rentals do not qualify.

Eco Technologies International certifies that the insulation products listed below are "Eligible Building Envelope Components" that may qualify for the tax credit allowed under IRC Section 25C.

- Multi-Layer Reflective Insulation system with R-Value based on installation and product specs.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.
